AHT sails into Ta' xbiex harbour-Malta!

The beautiful island of Malta is the smallest country in the world in which AHT is currently active, but in fact it has been achieving great results taking in to consideration its tiny population of only about 400,000 people. Alternative Technologies Ltd the AHT exclusive distributor in Malta led by the dynamic team of Mario and Maria Cachia, provide an unrivalled service to their customers with high quality products, a vast technical expertise and an impeccable service. Through their hard work they have managed to position AHT at the top of the Green Energy scene in Malta and their latest success is the Blue Harbour Apartments in the Ta' xbiex luxury yacht marina. This is indeed a special achievement and we would like to congratulate the Alternative Technologies team for their success and for sticking to their principles. As Mario said "It is our duty to strive to provide the best for our customers at a reasonable and affordable cost, because we strongly believe that everyone deserves the best service possible and AHT clearly is the crème de la crème for Malta!"
